

# ABOUT HEART MATH TUTORING

Heart serves as the link between volunteers and elementary students who need help.

**Heart's mission** is to ensure that all elementary students develop a **strong foundation in math** and **enthusiasm for academics** needed for long-term success, by helping schools use volunteers as tutors.

➔ **Growth in math skills:** 98% of Heart students tutored to date have met program growth targets, showing growth in two or more foundational math concepts. On average, students have grown in over 4 concept areas.

"Heart is the best use of tutors I have ever seen."

➔ **Growth in confidence:** 96% of 2015/16 surveyed teachers believe students showed increased confidence/enthusiasm in math as a result of Heart.

-Kaneka Turner, CMS Elementary Math Specialist

"Once they become better at math they develop the confidence to be the best that they can be. It filters into every other aspect of the students' education!"

-Amanda Saunders, Teacher, Billingsville Leadership Academy

## Curriculum

Heart uses a CMS-approved, Common Core-based curriculum designed specifically for volunteer tutors. It includes:

- Hands-on activities
- Clear goals, learning levels
- Instruction targeted to meet each student's specific needs
- Pre- and Post-assessments measuring student growth

## On-Site Coordinator

Heart provides an on-site Program Coordinator to each school site. Responsibilities include:

- Training and coordinating volunteers
- Coordinating and completing student assessments
- Communicating with teachers
- Monitoring and supporting student progress
