

We need YOU this school year!

Want to make a difference in a student's life in just one hour a week?
Become a Heart tutor!

Why Heart Tutoring?

- ▶ Tutors build students' confidence and math skills with every visit, while also serving as a positive role model.
- ▶ Our program is organized and effective – training, lesson plans, and staff support are provided.
- ▶ An on-site staff person is there to help you during all sessions!

What is the commitment?

- ▶ Work 1:1 with the same student each week for 30 minutes, or two students back-to-back for 1 hour.
- ▶ Flexible locations and times—stop by on your way to work or break away from the office at lunch!
- ▶ You can switch your day when your schedule changes.

What if I'm not a "math person"?

- ▶ Advanced math knowledge and tutoring experience are not required! All our students are in grades 1-5. If you can do basic math and have a passion for helping kids, you can tutor with Heart Math Tutoring.
- ▶ We supply all the tools you'll need. You will play games and other fun activities that help strengthen your student's foundational math skills.

“My students look forward to going with their tutor every single time. It’s amazing to see all the growth they can make in one year! The tutors truly care. They are encouraging and help them build academic confidence. It is so important for our students to feel loved and confident in school, and Heart Tutoring definitely fosters that.”

-Ms. Hammond, 4th grade teacher at Sterling Elementary

Program Outcomes:

► **98%** of over 3,000 students to date have **met program growth goals in math** set with guidance from elementary math specialists at UNCC and CMS.

► **92%** of teachers observed an **increase in student confidence/enthusiasm toward math** as a result of Heart, and 63% reported students are more confident in subjects *other than math*.

► **99%** of volunteers surveyed **rated their experience with Heart Tutoring as positive!**

*Tutoring sessions are Mon.–Thur. unless otherwise noted.
